

FOR IMMEDIATE RELEASE : March 21, 2001

Senator McCain Supports Museum

"In September 2000, in conjunction with the production of the video "Flight Line: The Army Helicopter Pilots of Vietnam," Senator John McCain, a Vietnam veteran and POW, taped a Public Service Announcement for the museum. In it he expresses his personal support for the museum effort, and asks other veterans, and interested Americans, to contribute to making the museum a reality. This PSA has been edited into 30, 60, and 75-second versions and is being distributed to television stations around the United States. The museum would like to publicly thank Senator McCain for his support, and ask everyone who sees his message to join him in supporting The National Vietnam War Museum."
